pure apertures & dimensions

integral sloping tops
Clothing, rubbish and food left on top of lockers can be both a health and fire hazard. Our innovative sloping top design eliminates that unsightly gap at the top of the locker that can allow dirt and bacteria to accumulate. Not only does this design look better but it will be of particular benefit in sterile environments. Retro fit sloping tops also available.

locks - pure and secure

standard cam lock
Our standard cam lock features 3000 serial combinations. Two keys are supplied with this lock.
CODE: LF-A

standard hasp lock
This stylish hasp allows the use of a padlock with a maximum shank diameter of 7mm, minimum 5mm. Padlock sold separately.
CODE: LF-D

premium cam lock with plastic key fob
Our high-security premium cam lock features double entry key access and offers a higher level of security.
CODE: LF-B

security hasp lock
This hasp offers a higher level of security over the standard hasp and also adds a touch of style to your locker.
CODE: LF-C

reprogrammable lock - private mode
Available as private mode, this 4 wheel mechanical combination lock features up to 10,000 unique combinations. For additional security the combination lock is also available with an optional 'twist resist' feature.
CODE: LF-E

reprogrammable lock - public mode
Available as public mode, this 4 wheel mechanical combination lock features up to 10,000 unique combinations. For additional security the combination lock is also available with an optional 'twist resist' feature.
CODE: LF-H

digital combination lock
With a solid zinc alloy housing, 10-digit keypad, a secure key override as standard, the Zenith digital lock is the perfect choice for a wide variety of applications.
CODE: LF-I

RFID contactless digital lock
High strength Grivity makes this lock very robust, the lock can be used independently or paired with existing wireless systems. Steel override key available to bypass the contactless locking feature when immediate supervisory access is necessary.
CODE: LF-J

coin/token return or retain
These self-service locks are simple and easy to use. This lock is available in two modes: coin return and coin retain (retain if used with the additional Coin box, opposite) in both modes the lock is controlled using a master key, available separately. Suitable for dry environments only.
CODE: LF-K

door front coin return lock
E1 coin return lock offers a simple and cost-effective solution for multiple occupancy locker compartments. Ideal for use in changing rooms and general public areas. Can be retro fitted to most Pure locker doors. Lock supplied with two keys, suitable for dry environments only. Master key available.
CODE: P-E

RFID contactless circular lock
This is an environmentally friendly, low energy system using just one standard, easy to charge, 1.5V AA battery. The transponder is available in wrist, tag or wristbands. All transponders are easy to program to master or user. Suitable for dry environments only. Master key available.
CODE: P-U
