

pure benefits & features

Dynamic card holder can accommodate a number plate

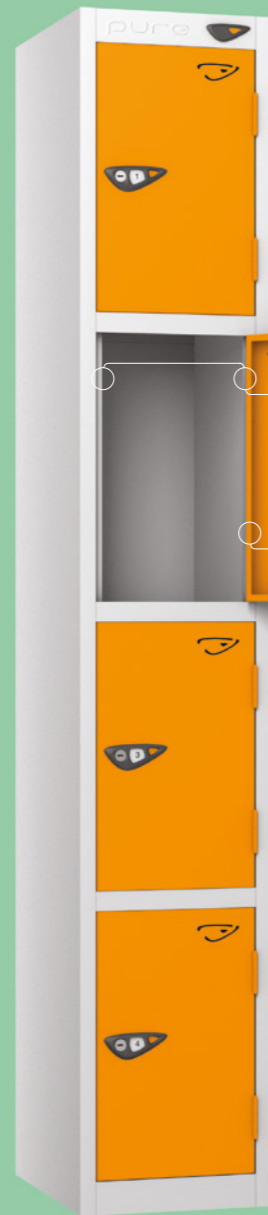

Specially designed high flow air vent system

bs 4680: 1996

bs 6396: 2008+21:2015

(industry4.0)
data driven technology

(10yr)
guarantee

Stylish colour coded top badge which can be individually branded

increased security

Double return for higher levels of security

Secure through frame locking

Five knuckle hinge

(Flamezero)
fire tested and approved

(bioshell)
anti-bacterial coating

(CO2 zero)
carbon zero manufacture

- carbon zero manufacture
- doors vented aiding air flow
- through frame locking
- flamezero certificated
- made in britain
- high quality uk locks
- fully recyclable
- robust .8mm & .7mm thick steel
- covid safe finish - bioshell
- off set rivets on all products
- anti-intruder frame
- tested to bs standards

(magma/white)

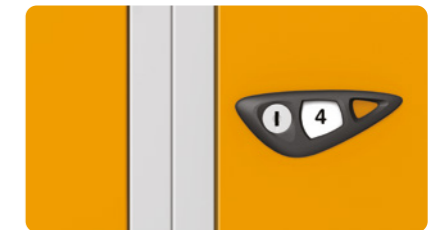

pure design

We've re examined every detail and made improvements at every turn. Here's an example of how the little things count. By simply creating an indent for the rivet of an adjoining locker to locate, we've removed the creep that so often catches planners out when specifying quantity for a given space.

The visible gap between adjoining traditional lockers can be up to 4mm wide.

the pure solution

Our innovative solution is a simple rivet pocket and an offset rivet allowing lockers to sit flush with zero gap.
